**M DESIGN STUDIO** is a certified WBE women-owned interior architectural and design company of unique style and character specializing in an innovative approach to design. Focusing on our client's vision, desires, and objectives, we can create original space solutions by fusing our knowledge of different building program types into a new and improved mixed-use space. Our goal is to make our clients at ease and thrilled with their new environment. Our collaborative designs offer experience and creativity in various markets such as hospitality, commercial and higher education design in new build, renovations, and adaptive re-use construction. Our philosophy is to deliver superior, personalized service to every client. We believe in creative, caring, and responsible design.

M DESIGN STUDIO is a highly competitive boutique firm with an extensive portfolio of hospitality, commercial and educational projects for the world's leading companies. This experience allows us to focus on our clients' goals and the brand identities to provide a superior product within the clients' budget. We are committed to being involved in all aspects of a project and clients take comfort that their project, regardless of the size, is of high priority.

**MICHELLE THOMAS, IIDA**, *Principal Designer*, founded MDS in January 2003, created a small interiors business that tailed to clients' needs. Her clients expressed an interest in receiving more personalized attention with their project than they were given from large companies. With more than twenty three years of experience, she offers an understanding of various company brand standards and familiarity with various market sectors.

Our services include establishing a design concept, design development, contract documents, custom product brand development, and project management which ensures our clients that schedule, budget, and quality are under control. M DESIGN STUDIO has developed valuable relationships with many known vendors and manufacturers that understand what it takes to be competitive and not sacrifice quality.
